

Respected seniors and dear colleagues,

اسلام وعلیكم

Having served you whole heartedly for a decade with honesty, dedication and commitment, I seek your support for the PALPA ELECTIONS 2010-2012 for the post of General Secretary.

With my personal experience in the Association for an extended period, I have a firm faith in my community, its rightful clout and unblemished unity. **All managements have tried to create fissures in this "well knit family" but has failed time and again.**

This election is no exception. An Executive Committee to the liking of the Management would be a harbinger of disaster for this elite Association. Let me assure you that this attempt is underway this time around as well, more than ever before. We are the only Association which is truly independent so far and not in the clutches of the Management.

Our collective endeavour should be to ensure that the participating individuals are not contesting elections at the behest of the Management. We need people who would work selflessly, regardless of their status or seniority. If not guarded against, it will be a sure recipe for disaster; worst than what all the Martial Laws and military regimes combined couldn't inflict on PALPA.

My sincere request to my seniors/colleagues would be to sift the genuine individuals only and not the management installed contestants for the overall benefit and prosperity of the Association. Let us not become an Association like all others in PIA, which are mere mouth pieces of the management, with selfish agendas and strong personal motives.

I sincerely hope and pray that our esteemed Association keeps its unique flavour alive. **More importantly, the elected representatives should work dedicatedly for the membership rather than on the whims of the Management.**

May Allah protect and bless us all with the perseverance, which has been our hallmark over the decades.

Capt. Arif Majeed
For General Secretary - PALPA

LONG LIVE THE UNITY OF PILOTS.
