PIA MD for making airline 'world class'

KARACHI: Managing Director PIA, Captain Mohammad Aijaz Haroon in a letter to the airline employees has motivated them to make the airline 'world-class' and profitable. PIA MD stressed on the employees to work harder and pull the airline out of the present crisis to turn it into a profitable airline as the management had fulfilled a decade old demand of the employees for a rational pay package and facilities despite the fact that the airline was facing a financial crunch. Employees were informed about the airline's market share in the region and were advised to increase business share through concerted efforts by the entire PIA team while focusing on the cost cutting measures. **STAFF REPORT**
