

Dear Colleagues,

اسلام وعلیکم

The overwhelming enthusiasm and interest being witnessed in PALPA elections is a manifestation of the fact that we are a united and very much alive community – **a force to be reckoned with**. I am sure you must be in serious thoughts about choosing the right candidate to represent you for the next two years. As it is a big responsibility over each and every voter to elect the right candidate.

My friends, who are contesting in this election, have been writing letters, sending messages, regarding their manifesto and motto, which I feel is almost the same. Negotiations on the salary package, improvement in the working conditions and resolution of disputes are the basic duties and routine matters of our Association and the elected members are duty bound to negotiate and to achieve the best for their members.

I feel the most important aspect which all of us tend to forget is the “**restoration of our lost integrity, honour and dignity**”, while we rightfully concentrate on the improvement in our emoluments and working conditions, we must equally give due importance to regain our lost respect and dignity as pilots.

It has been my endeavour for the past nine years in PALPA and specially so, during the last two years as Vice President, not to compromise on deterioration of our respect and dignity in exchange of some coins. We should rather develop the attitude of letting go some coins to regain our respect and dignity. With the working agreement enforce now, our task ahead should be more inclined towards acquiring back our lost respect.

I am confident that through your precious vote you would choose the right candidate to serve you as **President PALPA**.

Remember, "Millions without integrity turn into ashes and a penny with integrity has worth of Millions".

May Allah bless you all.

Sincerely yours,

Capt. Suhail Baluch
For PRESIDENT - PALPA

LONG LIVE THE UNITY OF PILOTS.
