INFO

INOCULATION/VACCINATION FOR COVID-19

Dear Members, السلام عليكم

April 08, 2021.

In view of prevalent pandemic and severity of recent wave, all cockpit crew are requested to get themselves vaccinated at the earliest. Crew is encouraged to avail the inoculation facility extended by PIA, therefore, Chief Pilot scheduling circular on the subject may be complied with at the earliest.

This step shall effectively pave the way for defeating pandemic and return to the normal life and operations. Any compromise on this aspect is a safety risk and must not be taken lightly. All conspiracy theories in this regard must not be paid heed to.

Flight Operations management is being requested to arrange vaccination of crew families in the second phase.

With Best Regards,

Capt./Ch. Salman Riaz
